## Acceptance notes\*

I would like to subscribe to the free RAUCH newsletter.

I would like to be informed about other products, services or other activities of RAUCH Landmaschinenfabrik GmbH

\*Your data will not be shared with third parties. Your consent can be revoked at any time by sending an e-mail to [websupport@rauch.de](mailto:websupport@rauch.de). In order for us to send you information that is of interest to you, your data will be stored together with any data collected from you previously or in the future for the duration of your consent.

Spreader

Spreader type  Serial number

Spreading disc  Working width

Fertiliser

**Sample 1**  
Product name  Manufacturer  Country of origin   
Other information

**Sample 2**  
Product name  Manufacturer  Country of origin   
Other information

**Sample 3**  
Product name  Manufacturer  Country of origin   
Other information

**If available, please enclose the corresponding product/safety data sheet or delivery note.**

## Note on sampling

A sample of approx. 3 kg is required to determine a recommended setting. The sample should be taken from different locations in the fertiliser store.

## General information

The fertiliser spreader setting we determine is a recommendation. Please check this again using a practical test kit (transverse distribution) and carrying out a calibration test (dosage).

Analysing the fertiliser sample takes approx. 1-2 days and is free of charge for you.

**Please send the sample to the above address, ensuring that it is well protected against damage and moisture.**

We will be happy to answer any questions you may have on +49 7229 8580-254 or at [testhalle@rauch.de](mailto:testhalle@rauch.de).
